

Storage Recommendations for Versiv PTFE Coated Fabrics

Versiv Composites Limited recommends that to maximise the shelf life of its products the following storage conditions should apply:

- Temperature ~ 20°C (16°C to 24°C)
- Relative Humidity ~ 50% (40% to 60%)
- Storage away from direct sunlight
- Clean dust and sand-free environment

Virtually unlimited Shelf Life – due to the excellent resistance properties of P.T.F.E.

It is the user's responsibility to ensure the suitability and safety of Versiv Composites products for all intended uses and that the materials to be used comply with all applicable regulatory requirements. Versiv Composites Limited assumes no responsibility for any product failures that occur due to misuse of the materials it provides arising out of the design, fabrication, or application of the products into which the materials are incorporated by purchaser and/or user.

WARRANTY: We warranty specifications at delivery and honour claims for such breach of warranty for six (6) months after delivery. The only obligation under any applicable product warranty will be to replace any portion proving defective, or at our option, to refund the purchase price thereof. User assumes all other risks, if any, including the risk of injury, loss or damage, whether direct or consequential arising out of the use, misuse or inability to use this product(s). VERSIV COMPOSITES LIMITED DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

**Partnerships that inspire.
